Comment : Our local LPFM gets too much interference from a Knoxville Station due to the mountainous terrain and French Broad River Valley. Please deploy contour protection.

I support translator ownership by LPFM stations in this area. . . I live 15 miles away from WPVM and cannot get signal.

I support the FCC position to remove 3rd adjacent channel spacing to give LPFM more potential.

Kudos to the FCC for increasing the number of LPFM stations and making them more viable and present.!

Please make all effort to ward off corporate and political hegemony, and do your part to ensure liberty, freedom and knowledge for the citizens of our country.

Peace,
Laurie Fisher
